1.4 Job Description

Full Stack Web Developer

The Full Stack Web Developer role is that of middle management reporting directly to the Chief Operations Officer. Your primary focus will be to turn customer website development requirements into consistent outcomes.

Required Attributes

- Ability to distill large volumes of data into key findings and organize ideas in a logical pattern using clear communication to convey those ideas
- Exceptional learning agility and ability to distil insights from various data and information sources; Keen and able to digest large amounts of information
- Strong organizational skills, as well as attention to detail;
- Ability to articulate clearly, recommend and explain resolutions;
- Strong analytical, communication and problem-solving skills;
- Ability to work individually, and manage integrated teams;
- Attentiveness, consistency, and ability to work under pressure;
- Ability to establish accurate expectations from escalating issues;
- A strong awareness of emerging technology and IT trends;
- Advanced knowledge of IT systems, both hardware and software;
- A passion for technology and how it affects the environment;
- Awareness of the importance of knowledge and education.

Education

- Degree in Computer Science or similar (2:1 or higher) BA preferred.

Required Experience

- 4-6 years of industry experience within similar web development positions.
- Ideally have good knowledge of product and infrastructure development, IT service management and support.

Key Responsibilities

- Write well designed, testable, efficient code by using best software development practices
- Create website layout/user interface by using standard HTML/CSS practices
- Integrate data from various back-end services and databases
- Gather and refine specifications and requirements based on technical needs
- Create and maintain software documentation
- Be responsible for maintaining, expanding, and scaling our site
- Stay plugged into emerging technologies/industry trends and apply them into operations and activities
- Cooperate with web designers to match visual design intent

Job Description

- Full-Time Customer Success Manager;
- Work for 45 hours per week;
- Get paid on a monthly basis;
- KPI and salary review yearly;
- 21 days of holidays per year.

Required Documents

- Resume (mandatory);
- Driving license (mandatory);
- Reference List (preferred).
